

Vertex Series

Suspended & Wall Mounted Sign System

VERTEX SERIES

The Vertex Series is a simple ceiling suspended or wall mounted sign system. It is designed to be lighter and easier to update than other systems of its kind.

Vertex Series can accept a range of insert panels, thus offering you more choice with your design and graphic options.

The aluminum frame is designed to accept a variety of sheet materials that can be changed over, if and when desired.

The flexible End Caps make it simple to slide the sheet material in and out of the frame.

Slide your selected panel material into the frame/channel with completed graphics.

FINISHES

- Frame - Standard finish is clear anodized aluminum.
- End Caps - Gray (Flexible Plastic)
- Painting - Both the frame and the End Caps can be painted if required.

INSTALLATION

- The Vertex Series is supplied with stainless steel braided wire. Ceiling fixings are not included.
- Method of attachment to the ceiling to be advised by the sign installer. Various connectors are available.
- Vertex Series can be wall mounted if desired. Please advise if suspension wires are not required.

HOW TO OPERATE

To change the inserts over, just slide the panel out to one side and the End Cap will flex open enabling removal.

Repeat in reverse to re-insert the new panel.

Slide Insert to one side to remove.
